

單片、多片糊箱機

One-piece and Multiple-piece Folder Gluer

獨創冷 / 熱雙膠系統 Unique Cold Glue and Hot Melt System

低投資 高報酬 Affordable Investment

操作簡單 Easy Operation

調整精準 Precise Adjustment

節省空間 Save Space

單片、多片糊箱機 (KS-1600/2100/2500M)，是專為兩片接紙箱所開發之機型，適用介於卡紙300克重至AB浪(視軋線而定)之紙箱，可生產單片或多片式的紙箱。配置可獨立設定的噴膠系統，無論是平口箱、異型箱皆可生產且對紙張的接受度高。特別是難以人工生產的大型或高強度的瓦楞紙箱，在此糊箱機生產的效果更為顯著。

Multi-Functional Folder Gluer KS-1600M/2100M/2500M are newly developed and excellent for making one-piece and two-piece cartons. The wide diversity of paper kinds such as duplex board 300gsm and up to AB-flute corrugated boards with proper creasing lines is all applicable on the same machine. Regardless of RSC or irregular cartons, the machine performance is outstanding, especially for large-scale corrugated cartons with high strength which is usually difficult for manual production.

便捷調機 Fast Adjustment

以馬達與螺桿傳動調整盒樣尺寸，操作人員無需移動位置，5~15分鐘即可快速換單。
By motor and screw drive for size and design adjustment, it takes 5~15 minutes only for changeover.

多種觸發生產 Multiple-Trigger for Production

針對盒樣或操作人員熟悉的生產模式，例如踏板、按鈕和電眼偵測進行選擇，可有效提升整體生產效率。
Choose the best way of production based on carton designs or operator's familiarity to operate such as by pedal, pressing button or sensor detection. It improves the overall production effectively.

適用類別 Applicable

廣告展示架/陳列架
POP / Display shelf.

大型家電瓦楞紙箱
Large appliance corrugated cartons.

大容量/高強度瓦楞紙箱
Strong and large corrugated cartons.

選購配備 Optional

壓著輸送機 Pressing Unit

有效解決紙張張力，糊邊彈開問題，適用於高強度、五層瓦楞紙的生產。
An effective solution for paper tension and bounce problem on paste side. It is suitable for producing high-strength or 5-ply corrugated cartons.

計數橫送機 Horizontal Counter Delivery

精準計算數量，人員可立即打包，數量與橫送距離可自由設定。
Precise calculation of carton volumes, operators can pack carton piles immediately. It is able to set quantity and distance for horizontal delivery freely.

液壓升降臺 Electro-Hydraulic Lifting Tables

人員生產效率提升，自動偵測紙張提升高度，適用於平口箱、單片箱的生產。
Increase the production efficiency. Automatically detect paper height, and then lift up to the proper position. It is suitable for making RSC and one-piece cartons.
